NATURAL GAS

Docket 18046 and SPIRE ALABAMA INC. -- Division Report on Rate RSE as of September 30, 2019
18328

Based on preliminary figures at point-of-test September 30, 2019, the RSE return on average common equity for the fiscal year ending September 30, 2019, was 10.38 percent, which was within the authorized range and results in no adjustment to rates. The authorized return on average common equity is 10.15 to 10.65 percent.

The preliminary indication is that the company ended Rate Year 2019 below the Cost Control Measurement Range.

Docket 28101 SPIRE GULF INC. -- Division Report on Rate RSE as of September 30, 2019

Based on preliminary figures at point-of-test September 30, 2019, the RSE return on average common equity for the fiscal year ending September 30, 2019, was 11.38 percent, which is above the authorized range. As a result, rates will be reduced by \$943,291 effective December 1, 2019, through September 30, 2020, to reflect the adjustment under the normal operation of RSE. The authorized return on average common equity is 10.45 percent to 10.95 percent.

The preliminary indication is that the company ended Rate Year 2019 below the Cost Control Measurement Range.

Utility Enforcement Division

SUBJECT: Agenda for the November 5, 2019 Commission Meeting

This memorandum reflects the Utility Enforcement Division's (UED) report describing the major tasks, inspections and activities accomplished by its staff during the month of September 2019.

RAILWAY SAFETY

The track inspection results below reflect activity by our Railway Safety (RWS) Staff in the field.

Rail Carriers Visited	Track Inspections	Track Defects Identified	Violation Recommended	Track Miles Inspected	Track Turnouts Inspected
12	22	110	0	150	94

The table below reflects track safety observations made in which no non-compliant condition was identified. Thirty-five roadway worker's safe practices were observed.

Railroad Bridge Observations	Roadway Worker Protection	Roadway Maintenance Machines	Bridge Worker Safety
7	18	13	1

The data in the table shown below was collected from Motive Power & Equipment (MP&E) inspections that were performed on locomotives, freight cars, tank cars, and other railroad equipment.

Rail Carriers Visited	Regular Eqpt. Inspections	Defects Identified	Violations Recommended	Number of Units Inspected
4	9	108	0	549

The table below shows one safety observation completed by the MP&E Inspector in which no non-compliant condition was identified.

Air Brake Tests	Blue Flag Protection	End of Train Devices
1	0	0

There were no incidents reported in September that required RWS involvement.

The RWS Administrator gave a presentation concerning railway safety to the American Society of Safety Professionals where he discussed various aspects of rail safety and how it would pertain to the rail customers that own track within their facility.

The 2019 National Rail Safety Week observance was held during the PSC's regular monthly meeting. Resolutions were presented to those railroads that achieved exemplary safety records during the previous work year.

MOTOR CARRIER SERVICES

The Motor Carrier Services (MCS) staff accomplished the following matters regarding state authority to operate as a motor carrier in Alabama with proof of insurance coverage:

Vehicle Registration Numbers	Intrastate Applications		NOL Processed/ Closed Intra Applications	Under Legal Division Review	New Authority Approved	Motor Carrier Authority Inquiries		
	Processed	Returned				Phone	E-mails	Others
41	9	5	2	13	14	74	67	23

MCS staff members handled the tasks shown below regarding insurance coverage, prepared correspondence that challenged incorrect filings and addressed related inquiries:

Insurance Filings Received	Revocation Orders	Reinstatement Orders	Miscellaneous Actions	Letters Sent	Insurance Inquiries	
					Phone	E-mails
447	21	18	3	21	41	415

The Section addressed the following Unified Carrier Registration (UCR) responsibilities:

UCR Applications		UCR Mail outs for 2019	UCR Audit Correspondence	UCR Inquiries	
Received	Returned			Phone	E-mail
2	2	105	13	88	48

As of September 30, there were 7,937 Alabama motor carriers registered for 2019 Unified Carrier Registration (UCR) leaving 1,633 still unregistered. The staff mailed five letters to carriers that created vouchers several weeks prior where payment had not been received for 2019 UCR registration year.

During September, the staff participated in the Show Cause hearing for carriers that did not pay their 2018 UCR. No carriers attended the hearing; however, 20 carriers paid their 2018 UCR registration fee. Four changed their carrier operation to intrastate, which is exempt from paying the UCR, and eight deactivated their USDOT numbers. There were 27 certified show cause hearing notices returned unclaimed or for invalid addresses.

In September, the staff mailed two letters pertaining to Focused Anomaly Reviews (FARs) for 2019 UCR registration year. A total of \$1,283 was collected from FARs for the month.

The staff also assisted motor carriers in making necessary changes to their operating status with the Federal Motor Carrier Safety Administration (FMCSA). There were 18 MCS-150 forms processed indicating that seven motor carriers' USDOT numbers were deactivated and eleven forms contained updates to carriers' USDOT number data.

A highpoint from the UCR Board of Directors meeting in September was that the Board voted to submit written comments to the FMCSA in response to FMCSA's notice of proposed rulemaking regarding the fee levels for 2020 & 2021 UCR registration years. In the UCR Board's proposal, the fees for 2020 & 2021 would remain the same.

Here are some of the highlights from the UCR Board's Audit Subcommittee meeting in September:

- There are only two states left that have their own UCR registration system. Seikosoftware will reach out to those states to see if they would be willing to transition to the National Registration System (NRS)
- There are three states that have not submitted their 2018 annual carrier audits and will have to appear before the UCR Board to explain why
- The NRS Audit Tool now has ability to upload audit documents
- Subcommittee voted to select the eight states for the 2020 state compliance review. This will be brought to the UCR Board for vote
- Subcommittee updated the definition of a commercial motor vehicle to make it clearer. This will also be brought to the UCR Board for vote
- Subcommittee will recommend to the UCR Board that each participating state's percentage of registered motor carriers of its base carriers be at least 85% or higher and that states have a solicitation program of new and unregistered motor carriers

The staff e-mailed 55 For Non-Profit (FNP) quarterly reports for the third quarter of 2019 and mailed ten to FNP carriers that had no e-mail address on file.

Staff sent nine Show Cause hearing notices, by certified mail, to intrastate carriers for failure to file their 2018 annual reports.

In September, one passenger tariff was rejected for **WHC AL, LLC d/b/a zTrip (C3104)** and two passenger tariffs were accepted for **WHC AL, LLC d/b/a zTrip (C3104)** and **Taylor's House of Camellias d/b/a Taylor's House of Camellias Transportation (C4099)**. Additionally, one taxi tariff was accepted for **WHC AL, LLC d/b/a zTrip (C726)**.

There was one in-office compliance audit completed for taxi carrier, **American Cab Company, Inc. (C3627)** – recommended the carrier document individual trip mileage on future records

There was one on-site compliance audit for passenger carrier, **Medical Transport of Alabama LLC (C3753)** with no recommendation

The staff attended a passenger carrier hearing for the following companies:

- **Meridian, LLC**
- **Leech&Quality Transportation LLC**

There was no protest brought in either of these cases by other competing carriers.

The MCS staff responded to one Transportation Network Company-related e-mail.

FIELD SERVICES SECTION

In September, the Field Services Section (FSS) staff inspected Alabama Power Company's Tuscaloosa Business Office where the service area is growing to the point that their electrical power infrastructure is being upgraded to provide greater reliability to the current customer base and, at the same time, to prepare for future growth.

Staff visited Greene County Steam Plant to review current operations. Several projects have been completed this year to maintain or replace aging hardware and computer software.

One wastewater treatment system managed and operated by Bio-Flo, Inc. was inspected. This system, permitted by ADEM, can handle up to three times the permit threshold.

Escambia Community Utilities was also inspected. A new well is in place and performing as expected. Engineering is almost complete to replace old asbestos waterline and is anticipated to be completed within the current fiscal year.

Staff, along with the UED Director, attended a DOE/NARUC-sponsored Cybersecurity Training class designed to enhance Public Utility Commission staff's ability to ensure that regulated companies maintain an active role in protecting their assets against cyber threats.

The Common Equity as of September 30, 2019 (Actual) was adjusted using net income, payment of Common Stock and Preferred Stock dividends, Capital Contributions, and Other Adjustments from the Company's 2019 budget. The average common equity is a 12-month average using actual and budgeted data. The average retail common equity (RCE) was calculated using the retail separation factor of 95.57%. The retail net income (RNI) for average common equity and the common equity percentage (CEP) were calculated by using actual data for the nine months ended September 30, 2019, and then adding three months of budget data for October through December 2019. The Other Adjustments line item is the result of the Company adopting FASB Statement 123 (R), which requires the reporting of stock option expenses, if such expenses are incurred.

The Forecast is subject to change due to uncertainties associated with weather, customer usage patterns and economic conditions across the state.
