GAS PIPELINE SAFETY DIVISION ACTIVITIES

July 2025

Inspections

During the month of July, a total of sixty-nine (69) inspections were conducted utilizing one hundred and thirty (130) person-days. The inspections are as follows:

		STANDARD INSPECTION	CONSTRUCTION	OPERATOR QUALIFICATION	PUBLIC AWARENESS	IMP / DIMP	CONTROL ROOM MGMT	INCIDENT / ACCIDENT	SECTION 114	DRUG & ALCOHOL	FOLLOW-UP

	BIOFUEL											
TOTALS		15	11	9	2	3			3	7	19	69

Enforcement Actions

From the sixty-nine (69) inspections shown above, eight (8) enforcement letters of notification were issued leading to twenty (20) non-compliance items. There were twenty-eight (28) non-compliance items corrected during the month of July.

Training

Two (2) operator/contractor training sessions on Polyethylene (PE) plastic fusion and zero (0) fire response training were conducted in July:

➤ 7/2/2025	South Alabama Utilities	PE	15	Personnel Trained
➤ 7/30/2025	Jacksonville Utilities	PE	18	Personnel Trained

Incidents / Accidents

There were zero (2) state reportable incidents, and zero (0) federal incidents reported during the month July.

- 7/9/2025 Sylacauga Utilities Board – An electrical contractor accidentally discharged power through a pole anchor into the pipeline, causing an arc burn through the pipe wall. This resulted in the pipeline igniting at the location. The damaged section was promptly repaired, and gas service has since been restored. All individuals involved in the incident are expected to make a full recovery.
- 7/11/2025 Florence Gas – A Ford F-150 struck and ran over a farm tap, breaking it off above the valve. This caused gas to begin venting from the line, prompting the evacuation of nearby homes as a precautionary measure. Gas service was safely isolated and shut off at an underground valve located near the main. No injuries, fires, or fatalities occurred as a result of this incident.

Miscellaneous

The Gas Pipeline Safety (GPS) division is actively participating in Public Damage Prevention Meetings held across Alabama. These events are organized by the Alabama Public Awareness Cooperative Training (APACT) and the Alabama Fire College’s Alabama Pipeline Emergency Response Initiative (APERI) program. The meetings are designed to deliver critical training on effective response to pipeline-related incidents and to promote both public safety and damage prevention best practices.

The GPS division has also been selected to represent Public Service Commission and participate in the Study Commission on Utility Relocation Costs as they relate to Alabama Department of Transportation (ALDOT) projects. This committee was formed to address potential

conflicts between the Rebuild Alabama legislation and existing state law governing reimbursement of utility relocation costs. Rebuild Alabama legislation implies that relocation costs may be included within project costs but does not mandate coverage. Current Alabama law allows reimbursement for forced relocation of utilities only under limited circumstances. The Commission's role is to review these issues, identify potential gaps, and provide recommendations to ensure clarity and consistency for future ALDOT projects and impacted utilities.

SUBJECT: Agenda for the September 9, 2025, Commission Meeting

This memorandum reflects the Utility Enforcement Division's (UED) report describing the major tasks, inspections, and activities accomplished by its staff during July 2025.

RAILWAY SAFETY

The track inspection results below reflect activity by our Railway Safety (RWS) Staff in the field.

Rail Carriers Visited	Regular Track Inspections	Track Defects Identified	Violations Recommended	Track Miles Inspected	Track Turnouts Inspected
3	22	79	0	476	140

The table below reflects track safety observations in which no non-compliant conditions were identified. Twenty-seven roadway workers, bridge workers, and practices were observed.

Railroad Bridge Observations	Roadway Worker Protection	Roadway Maintenance Machines	Bridge Worker Safety
16	8	9	0

The data in the table below was collected from Motive Power & Equipment (MP&E) inspections performed on locomotives, freight cars, tank cars, and other railroad equipment.

Rail Carriers Visited	Regular Eqpt. Inspections	Defects Identified	Violations Recommended	Number of Units Inspected
4	9	157	0	585

The data below reflect both track and MP&E inspectors' records of inspection reviews on railroad inspections, repair records, and highway grade crossings.

	Track Inspection Records	MP&E Railcar & Locomotive Repair Records	Highway Grade Crossings
Inspections	0	1	4
Units Inspected	0	6	39
Defects	0	0	0

The National Response Center (NRC) reported three incidents in July:

1. A concrete truck strike at a grade crossing, resulting in the derailment of one locomotive and a diesel spill of between 75 to 100 gallons, with no injuries in Malcolm on **NS**.
2. A trespasser strike with fatal injuries in Theodore on **CSX**.
3. A bridge collapse resulting in a derailment of three rail cars with no reported injuries in Huntsville on **HMCR**.

RWS staff learned of a bridge collapse in Huntsville and notified the FRA. The FRA deployed its District Bridge Specialist to investigate. RWS staff worked with the FRA to gather information to assist in the investigation. The bridge collapsed under a train that was performing a shoving movement over the bridge with loaded cars. The conductor was not riding the shove move across the bridge at the time of the incident. The investigation into the root cause of the collapse is still under investigation.

MOTOR CARRIER SERVICES

0	1	1,294	51	41	15

As of July 31st, 8,432 Alabama carriers (91%) were registered for the 2025 UCR, with 820 remaining unregistered. Our office received funds from the UCR Depository for June online payments processed through the National Registration System (NRS) from 244 carriers domiciled in Alabama and non-participating states.

The staff also assisted motor carriers in making necessary changes to their operating status with the Federal Motor Carrier Safety Administration (FMCSA). Eight MCS-150 forms were processed, containing updates to the motor carriers' USDOT number data.

MCS staff participated in the UCR Dispute Resolution Subcommittee call, the UCR Finance Subcommittee call, the UCR Enforcement Subcommittee call, and the UCR Audit Subcommittee call during the month.

Staff received 24 annual reports for the year ending 2024 during the month.

Eighty-eight For Non-Profit (FNP) quarterly reports for the second quarter of 2025 were sent to FNP carriers by mail and e-mail. Our office received five FNP quarterly reports for the first quarter of 2025 and 23 for the second quarter of 2025 during the month.

In July, an on-site audit was completed on the following passenger carrier:

- **Leslie M. Stone dba K3C Transportation (P650)** – Carrier has changed to an LLC and must reapply or submit a transfer application to the Commission. The carrier has changed its address, which requires new insurance filings.
