Projected Weighted Return on Average Retail Common Equity (WRRCE)		
For the 12 Months Ending December 31, 2026		6.19%

As of April 30, 2026, the Common Equity (Actual) was adjusted using net income, payment of Common Stock and Preferred Stock dividends, Capital Contributions, and Other Adjustments from the Company's 2026 budget. The average common equity is a 12-month average using both actual and budgeted data. The average retail common equity (RCE) was calculated using the retail separation factor of 97.85%. The retail net income (RNI) for average common equity and the common equity percentage (CEP) were calculated using actual data for the four months ended April 30, 2026, and then adding eight months of budget data for May through December 2026. The Other Adjustments, if any, result from the Company adopting FASB Statement 123 (R), which requires reporting stock option expenses.

The Forecast is subject to change due to uncertainties associated with weather, customer usage patterns, and economic conditions across the state.
